### CHICAGO BANK'S \$20 NOTES PUT OUT BY GANG

#### Secret Service Man Foils Plans.

A plot to circulate more than \$1,000,000 in counterfeit \$20 notes on the Federal Reserve Bank of Chicago was disclosed yesterday following the arrest in Blue Island of Nicholas Gioriana and Frank Reubeto.

The pair, who were seized by secret service men in Reubeto's home at 665 South Western avenue, were the last members of a gang of five counterfeiters to be taken into custody. The other three, Salvatore Mangiapane, Mario Olivaro, and Frank Raymond, were captured in Raymond's home in New York Tuesday night.

On Case a Year.  
Patient work of Gabriel Di Fiore, a government operative, for more than a year resulted in the exposure of the plot. Di Fiore became a member of the gang and worked with them when they started operations in the Burr Oak hotel over a year ago.

A sausage making machine invented by Mangiapane, confessed husband of four wives, was used as a blind to cover the operations of the counterfeiters, who worked on the top floor of the hotel. According to secret service men, Mangiapane would have realized a fortune from the sausage machine had he developed it through the usual channels.

#### Only 400 Notes Printed.

The expert work was performed by Olivaro, a clever engraver, who is said to have come into the country by way of Mexico. It was only a few weeks ago that the gang perfected their product, that the gang perfected their product. Only four hundred of the spurious notes had been printed and a still smaller number circulated here when a quarrel arose between members of the gang and they separated.

The machinery was erected and shipped to New York by the three arrested there. A large amount of bank note paper was found in Reubeto's home here. Four stills also were seized in the basement.

#### Stays with Gang.

Di Fiore remained with the gang until he saw the presses installed and in operation in New York. The raid followed. It required several trucks to cart presses, plates, negatives, ink, and other paraphernalia to the federal bureau in New York.

Di Fiore was at work with the men when the raid occurred and was also arrested on a John Doe warrant, but yesterday the charge against him was dismissed. The secrecy with which the federal coup had been engineered was evidenced by the fact that operatives here who arrested Gioriana and Reubeto declared they didn't believe they had obtained sufficient evidence of counterfeiting against them. They explained they were awaiting further disclosures from the New York department on whose orders they made the raid. The entire plot was made public in the eastern city following the receipt of word of the arrests here.

### SUNDAY EXPRESS SERVICE, LONGER TRAINS, 'U' PLAN

Three contemplated improvements for the elevated lines were announced yesterday by the Chicago Rapid Transit company. They are:

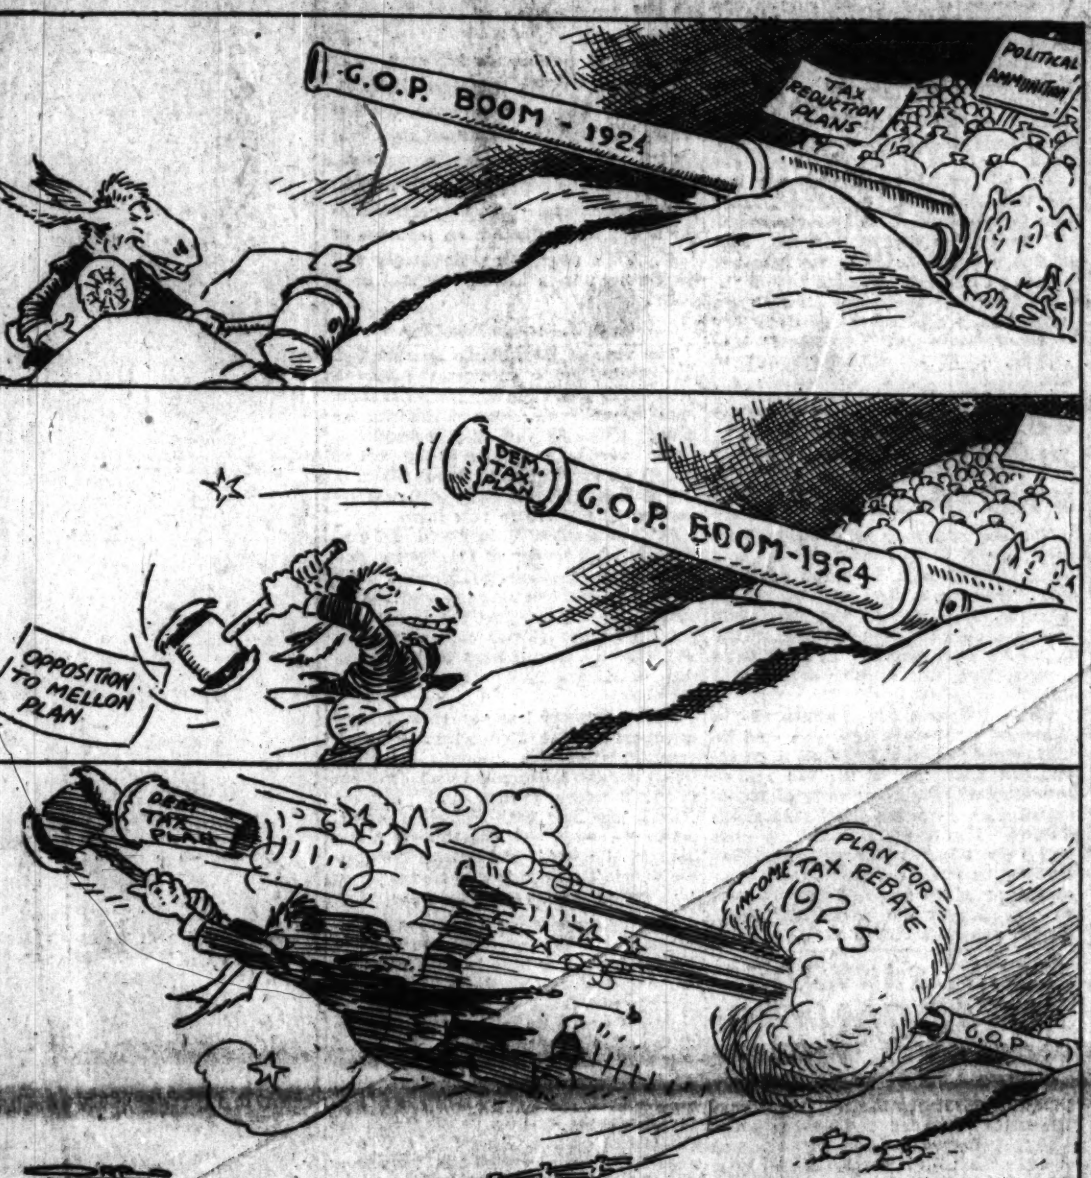

1. Sunday express service on all lines.
2. Remodeling of several stations, including 43d street, 63d street, and Cottage Grove avenue, and that at Sheridan road.
3. Extension of many platforms to accommodate seven and eight car trains.

"Immediate improvements probably will cost several hundred thousand dollars," said an official of the Chicago Rapid Transit company last night. "We regard establishment of the Sunday express most important of all. The 'shoppers' specials' on week days, put in service for the holidays, will be operated indefinitely, as they have proved popular."

Remodeling of "L" stations, it was asserted, is a makeshift, because the intention is to rebuild all of the older structures later.

The immediate platform extensions are looked forward to as a means for handling demands of increased traffic with comfort.

### THE OBSEQUIES WILL BE HELD NOV. 4

### LEFT \$1,896,000; TAX \$3,246,000

#### Col. R. H. Morse Attacks Father's Will.

Taxes—federal and state—inherited and income—seem as if they might drive Col. Robert H. Morse, son of the late Charles Homer Morse, founder of Fairbanks, Morse & Co., to the poorhouse.

It was developed yesterday that while Col. Morse shared in the \$2,246,000 estate to the extent of about \$1,896,000, the will imposed upon him burdens that bring his taxes up to \$3,246,000, or \$1,350,000 more than his share of the estate.

#### Sen Confronts the Will.

That has led him to file suit to set the will aside. His position arises from a complex series of trust funds, all the taxes on which fell to the share of himself and his brother, who share the tax burden equally.

So intricate are these funds that the Harris Trust and Savings bank has brought suit before Judge Charles M. Foell, following the delay in the Leland case, to have the court define the obligations of the bank as trustee.

Charles H. Morse set aside the trust funds not long before his death in May, 1921, when he was 90 years old. Attorney John E. Kehoe, counsel for Col. Morse, said the hearing of the bank's case before Judge Foell is preliminary to the will contest involving the entire estate.

#### Talks of the Elder Morse.

"Mr. Morse had married and given up the control of his business a few years before he died," Mr. Kehoe said. "He had nothing much to do during those latter days and so created trust funds, and in the end was wholly misled as to the relative values of his different properties."

In the evidence before Judge Foell it appears that his will provided that property left to his daughter, Mrs. Elizabeth Genius, wife of Dr. Richard Genius, 4894 Greenwood avenue, be sufficient to supply her reasonable wants.

#### Inheriting Some Taxes.

"In order to make sure of this a codicil was put into the will providing that all taxes and administration fees be paid by his sons, my client, and Charles H. Morse, Jr., out of the stock of the Fairbanks-Morse company, which was the only property he left them."

### FALLS AMID FAST TRAINS IN TUBE

#### Inky Darkness and Death on All Sides.

New York, Jan. 31.—The shudder many visitors to New York feel when their trains go burrowing into the dark subterranean lanes that filter into the Grand Central terminal became a horrifying reality of danger for Martin V. Tracy, a millinery salesman of Mount Vernon, N. Y. He escaped death but suffered a general physical collapse and his nerves were badly shattered.

Tracy was passing from the smoking car to a coach last night when from some unaccountable cause, he was thrown to the ground.

For a while he was unconscious. When he awoke and realized a ponderous train was passing and almost touching him; that he was within inches of the electrically charged third rail; that he couldn't rise, and that all was impermanently black about him—he thought he was in a nightmare.

Cautious lest he touch the third rail, Tracy gained his feet and found his arm had been broken. Staggering half gazed along the tracks, he screamed until his voice and strength failed. Every few minutes blinding headlights warned him of an approaching train.

"Once," he said, describing his experience, "I jumped just in time to dodge one train and look over my shoulder to see another approaching on the track to which I had jumped. I stood in between as 'thin' as I could."

Between trains Tracy used two packages of paper matches in a futile attempt to attract attention. When these had been exhausted he said he ran up the track "zig-zagging from one line to another, sometimes guessing wrong, and howling like a scared baby."

At 1 o'clock this morning he was noticed staggering about in the tunnel and hordes got him out with ladders.

#### Identified as Negro Who Shot Woman in Home

Clarence Underwood, 2168 Cottage Grove avenue, was identified early this morning as the Negro who shot Mrs. Hattie Raymond, 5315 Prairie avenue, last Wednesday, while he with two other Negroes were attempting to rob her home. He was identified by Anna Brown, a maid in the Raymond home. She also identified Homer Griffey, 4800 South State street, as one of Underwood's companions.

### Kept in Room by Indigestion; Doctors Alert

(Picture on back page.)  
Washington, D. C., Jan. 31.—[Special.]—Former President Wilson, who suffered a digestive disorder a couple of days ago, is in a condition that is causing alarm among his friends. Rear Admiral Grayson, his physician, remains optimistic, and said tonight he hoped the former President would be all right again within a few days.

Dr. Grayson issued the following statement tonight:

"Mr. Wilson's digestive disturbance has been less acute today, but he is somewhat prostrated by the illness of the last few days and has not been allowed to be up since the earlier part of the day."

#### Returns to Capital.

Dr. Grayson went south three days ago on a hunting trip. During his absence, it is learned, Mr. Wilson's stomach became upset and he was quite ill yesterday. Dr. Sterling Ruffin, a specialist on internal medicine, who was in consultation during the illness of Mr. Wilson in the White House in 1920, was summoned yesterday. Admiral Grayson was notified and returned to Washington this morning.

Mr. Wilson was reported to be better tonight, though confined to his bedroom. Although he has been up several times, it is learned that he had a very uncomfortable day and it will be necessary to keep him confined to his room for several more days.

#### Gives Up Auto Rides.

For the present Mr. Wilson's daily afternoon automobile rides with Mrs. Wilson through the streets and suburbs of Washington have been abandoned.

Both physicians, Admiral Grayson and Dr. Ruffin, called at the Wilson residence again tonight after visits earlier in the day. They were taking no chances in case of an emergency.

### TWO CHURCHES IN EAST DENY OUSTING CASE

#### His Record Clear, Members Say.

The center of interest in the Leland-Case divorce tangle yesterday afternoon shifted from Oak Park and Chicago to Brooklyn and Buffalo, N. Y., when Judge Charles M. Foell postponed his decision until Feb. 19 to enable an inquiry into Dr. Carl D. Case's record as a pastor and a man in other cities.

Judge Foell acted when William R. Moss, attorney for Mrs. Charlotte Leland, told the court he would prove that Dr. Case left the Hanson Place church of Brooklyn and the Delaware Avenue church of Buffalo because of improper relations with women members of their congregations.

Judge Foell granted Mr. Moss time to take depositions in Brooklyn and Buffalo. Mr. Moss said last night he would probably leave for the east on Sunday.

Meantime, inquiries made by The Tribune, through its correspondents, brought out that Mr. Moss will encounter difficulties. They found that the former parishioners of Dr. Case apparently were standing by him as solidly as those of his Oak Park church.

#### REPORT FROM BROOKLYN.

The subpoenaed dispatches tell the story.

New York, Jan. 31.—[Special.]—Lewis K. Thurlow, treasurer of the Hanson Place Baptist church of Brooklyn, who, with the Rev. Cornelius Woolfink of the Park Avenue Baptist church is alleged to have investigated indications of the Rev. Carl Case, former minister of the Brooklyn church, said tonight that Dr. Case's conduct, throughout his pastorate in Brooklyn, was "irreproachable."

Thurlow's statement was substantiated by those of more than twenty members of the congregation, all of whom said the minister's character was most exemplary. Thurlow, who was a member of the board of directors of the Brooklyn church, when Case officiated there, said the latter's resignation was neither demanded or did he have under any shadow. It was only better prospects for his future that led Case to leave his Brooklyn parish to go to the Delaware Avenue Baptist church of Buffalo in 1909, four years after he began his studies in the Hanson Place Baptist church, according to Mr. Thurlow.

The Rev. Cornelius Woolfink could not be located tonight.

#### RECORD IN BUFFALO.

Buffalo, N. Y., Jan. 31.—[Special.]—The Leland lawyers will find no flaw in the record of the Rev. Carl D. Case in Buffalo, it was said tonight by prominent members of the Delaware Avenue Baptist church, where he was pastor for ten years.

This was the view expressed by Dr. Willis Gregory, chairman of the board of deacons of the church and a member of the board when Dr. Case resigned to go to Oak Park.

"When Dr. Case decided to resign, ten years ago," Dr. Gregory said, "there was a movement in the congregation to induce him to remain. There was no division of opinion as to his worth and high standing as a minister of the gospel. He was with us for a decade and was instrumental in clearing the mortgage on the church property. This task and his other work undermined his health to some extent, and it was chiefly on the advice of his physician that he considered going west."

#### AWAIT THE VERDICT

BY GENETIVIE FORBES.  
It was a startled but disappointed crowd which gathered in Judge Charles M. Foell's courtroom yesterday afternoon expecting to hear the expected decision in the Leland-Case divorce tangle. Instead of the expected decision there came only a continuance to Feb. 19.

This was granted at the request of Attorney Moss representing Mrs. Leland, who announced he would be able to prove that the Rev. Dr. Case had left the Hanson Place church of Brooklyn and the Delaware Avenue church of Buffalo because of improper relations with women parishioners. In each case, Mr. Moss declared, the minister was given a "whitewash" only in the form of a six months' vacation.

He asked time from Judge Foell to

### Sunday's Tribune

take depositions in the cities named, and this was granted.

By opening up this door, Judge Poell has paved the way for a new trial. This one will be pushed back by Attorney Frederick A. Brown, friend of the court and counsel for Dr. Case. It will then be the spotlight on Leland's alleged infatuation for Mrs. Brown, his former private secretary, as well as co-worker in the Episcopal church.

The 19-year-old girl, Attorney Brown yesterday told, is now engaged to Leland, who is still married to Charlotte Leland. She received, according to Mr. Brown, a "slushy" check from Leland for a Christmas gift and is ready to leave town with him the moment he gets his divorce.

With these two legal wedges already inserted into the private lives of the two men, one in the past, the other in the present and future, anybody can expect almost anything.

**Calves in Surprises.**

Mr. Moss' accusations, flung out dramatically a few minutes after 2 yesterday, stunned the courtroom of people who in the six days of sensation, have become almost callous to surprises.

For more than an hour they had fought and scratched and cursed, and they swirled in the jam about the door. A special corps of policemen under Sgt. Mueller's hidden presence, station was detailed at all doors to save the crowd from itself. Women cried as they finally slipped into the room, lunging from the struggle in the corridor.

Mrs. Leland still in the same obscure brown garments, took her place rather late. She had been detained at home by the illness of her mother, Mrs. Beach Leland.

**Moss Makes Statement.**

Presently the door to the judge's chambers opened and counsel came out. The moment court convened, Mr. Moss stepped up before the bar and made the startling announcement that gave the trial additional momentum instead of a judicial quietus.

"If the court please," Mr. Moss began, "I would like to make a motion to continue this case and any further hearing of it for two weeks. I wish to take the depositions of certain people in New York City, Brooklyn and Buffalo. Their evidence will tend to prove that Dr. Case left the Episcopal church of Brooklyn because of improper conduct with women of his congregation; that the same thing was true at Buffalo; and that in both cases he was given, as in this case, a six months' leave of absence."

**Opposed to Delay.**

Strangely enough, the first to enter an objection to such a motion was Attorney Milford Olds, counsel for Leland.

"From the substance of the evidence," Mr. Olds said, "it doesn't seem to me that this is an issue in this case—that is, the character of the paramour. I can't see why the case should be continued for that purpose."

Waving his hand over at Mrs. Leland, who tried not to look self-conscious, Mr. Moss shouted: "If your honor please, my client stands before the world with evidence that she is a perjured witness hurled against her. Judge Poell then reminded Mr. Olds that while on the stand, Mr. Brown had interrogated Dr. Case as to whether he had left any of his former charges under a cloud. Therefore in this particular case, the character of the paramour could be an issue. Mr. Olds then withdrew his objection.

Mr. Brown, almost eagerly, told the court that he had "no objection whatever" to the taking of such depositions. Mr. Clithero, trustee of the Oak Park church, urged Judge Poell that "in common decency and fairness Mr. Moss ought to be denied the names of these witnesses."

"If he has information or witnesses to prove the charges made so flagrantly, he ought to furnish us the names."

The crowd uttered a bit as Mr. Moss apologized for being "flamboyant."

**Sum of His Evidence.**

Judge Poell ruled that Mr. Moss was not compelled to give, at that time, the names of his witnesses, but warned him to be careful that "you have enough information to justify you in saying to the court as one of its officers, 'There is evidence enough.'"

"I believe I have such information," Mr. Moss replied, "and am willing to take the consequences if I have misled you."

As the attorneys were wrangling over the exact time of the next hearing, Judge Poell declared: "Gentlemen, take whatever time you need, because the court feels that already he has advanced this case out of proportion to all other cases. It is not a matter of time. It is more important that the truth be brought out, now that you have opened the door."

Leland punctuated the judge's sentences with vigorous nods. His head bobbed affirmatively when the judge talked about truth, and wagged negatively when it was stated that "time did not count."

**The May Brown Affair.**

But his head and his whole body grew very still when Mr. Brown veered the discussion over to the May Brown angle of the case.

"Since the door is open," said Mr. Brown significantly, "I would like permission to go into the motive of the complainant in this divorce."

Four times, during the process of the hearing, testimony regarding Miss Brown and her alleged affair with her former employer, had been ruled out. So Mr. Leland looked satisfied until, after a long argument Mr. Brown said excitedly: "But I want to show that

**Is Sundae a Norwegian Creation?**

"Mrs. E. Gardner claims definite knowledge that such is the case. Here is the data she supplies in support of her claim:

Some thirty years ago, Carl Johan Sundae, a young Norwegian chemist, came to America and located in Philadelphia. He became a pharmacist, developed a hobby for making extracts and fruit syrups which he later combined with Ice Cream. With these combinations he produced a delicious dish to which he gave his own name—Sundae.

MISS ALICE ROBERTSON.  
(Copyright: Harris & Ewing.)

Miss Alice Robertson, former congresswoman, today received notice from the Veterans' bureau of her dismissal as waitress director of the Oklahoma Soldiers' Memorial hospital here.

Since her application for an indefinite leave of absence was denied, "Miss Alice" has been active in political meetings despite warnings of federal officials that it violated civil service rules. Hospital attaches said that was responsible for her discharge.

Miss Robertson today said: "I did not resign. I never would have resigned. I wanted to make them fire me."

She asserted that she would go to Oklahoma City to become president of the woman's club for President club in Oklahoma.

She is not worried because her new job pays no salary. "God will take care of me; I have always done right," she said.

## TRUSTEES GIVE CASE VACATION TO REST NERVES

Rev. Carl D. Case, his nerves worn to an edge by recent publicity in connection with the Leland divorce suit, will take a short vacation to rest up. It was announced last night by Delbert A. Clithero, chairman of the board of trustees of the First Baptist church of Oak Park, of which Dr. Case is the pastor.

The time that Dr. Case will go into retreat and the place where he will spend his vacation were not disclosed. It was rumored in Oak Park last night that he had already left, but this could not be confirmed. At his home all inquiries were referred to Chairman Clithero.

He is taking a much needed rest, said Mr. Clithero last night. "However, he will be in reaching distance if needed."

This man is engaged to be married to this girl, Mae Brown.

Mrs. Leland quipped more broadly than at any time during the trial. Harsh, at her side, almost sneered his disgust at such a ridiculous implication. Leland sat still in quiet amazement, it seemed, for a few minutes. Then his head began to wiggle strenuously. Dr. Case may, or may not have hunched himself just a bit further forward, the better to hear.

Gave Her Neckline.

"Have you got your witnesses?" Judge Poell asked. "Use them right now."

"I haven't got them now," Brown

responded, "but I have had the girl in my office. Let me say, too, that Leland presented her with a necklace (Chopard) before the divorce was granted."

After ascertaining a few more facts Judge Poell ruled that "if it has gone as far as a necklace, it has. I think it ought to be brought in." And he granted the continuance until Feb. 19.

"A cheap, shyster trick," was the way Dr. Case disposed of Mr. Moss' plea. "I never was granted a six months' leave of absence from any of my churches. There is absolutely nothing to these trumped up charges. I understand what little motivating there is for them came through an anonymous letter which Mr. Leland said he received."

"I welcome any and all investigations in my life at any point, pastoral or domestic. And that sensational bit of play acting this afternoon looks to me very much like a frightened person whistling to keep his courage up in the dark."

**Calls It "Trick."**

George S. O. Foreman, member of the investigating committee that cleared the pastor of Leland's charges, was really when he said the "trick" of the "trick."

"Do you suppose," he said, "that our church would have accepted Dr. Case for a minister without a thorough investigation of his life and reputation, when he came to us? We are not that stupid."

**Statement by Burton.**

Attorney Charles S. Burton, one of the deacons of Dr. Case's church and a brother of the Rev. W. T. Burton, declared last night that Attorney Moss' scandal hunting trip to Brooklyn and Buffalo will be fruitless. Mr. Burton visited the latter city about the time that Dr. Case came to Oak Park.

Leland protested very excitedly and repetitiously after court adjourned that he was engaged to Miss Brown.

"She's my friend, of course. Just as any nice girl would be the friend of a man in the same predicament."

At her home last night Miss Brown refused either to admit or deny the truth of her reported engagement to Leland, or of his Christmas gift to her.

## MELLON WINS FIRST ROUND IN HOUSE TAX WAR

**G. O. P. Votes to Report His Rates Unchanged.**

Washington, D. C., Jan. 31.—(Special.)—The administration won an important victory today in the tax reduction controversy, when Republicans of the ways and means committee voted that the surtax and normal tax rates proposed by Secretary Mellon should stand without change in the bill to be reported to the house.

By this action the first round in the tax reduction battle goes to President Coolidge and Secretary Mellon in their determination that the maximum surtax rates shall be reduced from their present maximum of 50 per cent to 25 per cent.

This does not mean, however, that the administration has won its fight. For many Republicans have notified ways and means committee members that it will never go through congress.

Nor does the committee action affect action taken yesterday, which provides for a flat tax reduction on incomes of 1924. That provision undoubtedly will go through both houses without difficulty.

**G. O. P. Stands Together.**

The vote of Republican members of the committee to support the Mellon plan today was 11 to 3. Then the fourteen Republicans, who constitute an exact majority of the committee, agreed to stand together in support of today's decision when action is taken in the full committee, thus insuring reporting of the bill in this form.

Representative Longworth (Rep., O.), majority leader of the house, who has advocated a compromise on surtax rates between Republicans and Democrats, said tonight that the house will not accept the 25 per cent maximum and that an amendment lowering the rate is certain to be adopted on the floor.

Representative Longworth and other members of the Republican steering committee of the house, including Representative Darrow (Pa.), Graham (Ill.), Sanders (Ind.), and Sinnott (Ore.), together with Speaker Gillett, conferred with the Republican members of the ways and means committee before the action was taken.

**West Urges 35 Per Cent.**

Western members of the steering committee urged members of the ways and means committee to fix the maximum surtax rate at about 35 per cent and warned them that unless they did so there would be no hope of passage of the bill in that form.

Those insisting on the Mellon rates argued that, as much as amendments on the floor are likely, it is preferable to report the bill with the rates at the lowest point. Otherwise, fear was expressed that no substantial reduction would be obtained in the end.

Democratic members of the ways and means committee during the day sought to go the Republicans one better in the matter of proposing a reduction in personal income taxes on incomes of 1923.

Representative Garner (Tex.), ranking Democrat of the committee, introduced in the house a resolution making effective the reduced rates of the Democratic tax plan on 1923 incomes.

## JUDGES ADOPT MIDDLE COURSE ON COUNTY AIDS

**Increase Haas Staff; Reduce Others.**

Judges of the Circuit court yesterday steered a middle course in their recommendations on county employes for 1924. They did not give the county officials as much help as the latter said they needed, nor did they cut down the rolls to the extent that J. L. Jacobs, efficiency engineer, said they might be cut.

The judges unanimously adopted the report of their own investigating committee, Judges Harry M. Fisher, Victor P. Arnold, and David F. Matchett. This allowed 147 more employes than Jacobs has said the county needs, but it cut down the per cent total slightly.

**Haas Staff Increased.**

Slight decreases in the personnel of most of the departments and an increase in one were recommended, this

after being the office of Joseph J. Haas, county recorder. It was recommended that Mr. Haas be allowed to increase his staff from 290 to 485, which request was for a total of 475, which Jacobs' recommendation called for 458.

Mr. Haas, the judges said, was given the increase mainly because his office last year showed a surplus of \$200,000 in fees, whereas in other years it has shown a deficit. The judges recommended that other fee offices be allowed to increase their fees.

**Jail Gets Six More Guards.**

Authority for Sheriff Hoffman to employ six more county jail guards was put into the report just before it was passed.

"We are mindful of the fact that the same degree of efficiency cannot be expected of employes in public offices as is obtainable in private enterprises," said the judges' committee report. "Citizens have a right to have their matters fully and courteously attended to."

## ROB SALESMAN GEMS NEAR POLICE STATION

Louis K. Salesman for All of

Lorch & Co., wholesale diamond dealers of New York, was kidnapped by three armed men and robbed of more than \$10,000 worth of loose diamonds and pearls yesterday. The robbery occurred while he was on his way from the 53d street station of the Illinois Central to the Cooper-Carroll hotel.

He said the man forced him to enter their car, cut a hole in the side of his locked bag, extracted the loot, and threw him out into a gutter a short distance from the Hyde Park police station.

His story appeared to be so incredible the police held him for several hours, until they received word from the New York firm to the effect that he had been a trusted employee for more than 20 years, and that his story concerning the amount of the loss was exact.

Drummers was used by members of the most guard crew successfully registered since Mrs. De Bouché's case. A year old Sidney Sherman, 1611 Arctis street, was crowned in a north branch of the river two days ago when he fell through the thin ice.

The argument was advanced in introduction of a number of letters to the New Orleans court, which were signed by Mrs. De Bouché.

Several additional letters to the court from Mrs. De Bouché, dated the morning and deposited in the New Orleans court, were presented in the case.

One witness was called to prove Mrs. De Bouché's case. He was W. T. Perkins, president of the Fourth National Bank in New Orleans.

In response to the argument, Mrs. De Bouché's counsel, Mr. Albert Howell Jr., leading the defense, called a number of witnesses to prove that Mrs. De Bouché's case was a welcome home.

Character Witnesses for Mrs. De Bouché were called to the stand. The depositions today were taken in New Orleans and the first was that of Dr. De Bouché, New Orleans physician.

## COVAN 'BROTHER' PUZZLE TO HEIRS WHO SPLIT ESTATE

The thirteen poor relatives who divided the \$1,000,000 estate of the late William P. Cowan, Wheaton oil magnate, through a decision of Judge Adam C. Clithero last August, may have to face a suit to break the will on the part of a man claiming to be Charles Cowan, long lost brother of the millionaire.

Charles Cowan first appeared in Wheaton two weeks ago. He said he had been in Nebraska during the trial and did not know of it. He mulled over the courthouse records and conferred with Assistant State Attorney Clancy. He was told that the case had been advertised and settled according to law, and that in order to share any of the money he would have to sue each of the heirs. He disappeared and no suit has yet been filed.

**MAGNUS INVADES PRESS GALLERY; ASSAILS WRITER**

Washington, D. C., Jan. 31.—Magnus Johnson, farm labor senator from Minnesota, invaded the senate press gallery today to make a personal and verbal attack on a correspondent of a Minnesota newspaper.

Shaking his fist in the correspondent's face, Senator Johnson used strong adjectives and epithets in taking exception to an article concerning a measure before the senate agriculture committee.

Half a hundred correspondents gathered around and there were cries of "throw him out" before the senator was escorted from the gallery by the superintendent.

## LETTERS AL SEQUEL CANDLER SUIT

Presenting Some  
of Plaintiffs.

On Jan. 31, Asa G. Candler, today began introducing evidence through his attorneys, in the suit which Mrs. Orestina de Bouchel brought against him, alleging breach of promise.

Mr. Candler contends, his attorneys maintain, that Mrs. De Bouchel's engagement to him in 1912 was invalid at the time she was the wife of Dr. Rocco de Bouchel, New Orleans.

At the time she was the wife of Dr. Rocco de Bouchel, New Orleans, she was married to him in 1912, in September, 1912, according to Mr. Rocco de Bouchel's counsel said, was not a resident of that state at the time.

The contention was outlined to the jury by Mr. Candler's attorneys, who were called to the stand.

## MAKING HUNDREDS OF LITTLE FOLK HAPPY

As a result of The Tribune's plea for skates to be given children of the Municipal Tuberculosis sanitarium, some 300 pair of skates were collected from the city's playgrounds. They were distributed yesterday. Left to right: (On wagon) John F. Berry, superintendent of the sanitarium, and Charles A. Reading, assistant superintendent. Standing on the ground: C. H. English, director of playgrounds, and his assistant, Herman Fischer.

### 300 Children Rejoice

It pays to advertise and if you don't believe it ask 300 kids at the Municipal sanitarium. At the time of the recent Silver Skates Derby of The Chicago Tribune Charles Reading, assistant superintendent of the sanitarium, suggested that if The Tribune would run a little item maybe the children of Chicago would give their old skates to the kids at the sanitarium.

The story was called to the attention of C. H. English and Herman Fischer, director and assistant director of the board of education playgrounds. They asked the children frequenting the playgrounds to bring in their cast-off skates. Yesterday more than 300 pairs were gathered up and taken out to the sanitarium.

Were the kids out there glad to get them? Just wait until the thermometer goes down again and then go out to their little pond and see for yourself.

At the Piedmont hotel during the reunion convention of the U. C. V. the ladies being also in the room.

That afternoon saw you alone in the corridor or hall of the hotel, when he gave you his telephone number. Later you telephoned him that you were alone in your room and asking him to call. He declined, saying that he did not visit ladies at their rooms in hotels.

You assured him it would be perfectly satisfactory that he visit you. He did not go. You gave him your home telephone and invited him to visit you when in New Orleans. He promised to do so. When in New Orleans he telephoned to the number, and was informed you were not there in New Orleans.

I got the above statement by agreeing not to divulge his name until such time as he will consent. I am pursuing the investigation so privately that no publicity will result.

Letter from Mrs. De Bouchel. A letter said to have been written by Mrs. De Bouchel to Mr. Candler Sept. 28, 1912, was introduced in evidence. There was no salutation. The stationery carried the De Bouchel coat of arms with the inscription "Deo Juvante Florent Lilia."

"My attorney informs me," the letter said, "that yesterday you refused to divulge the names of the men in Atlanta who say claimed to have visited me there in my rooms for improper purposes. Do you expect me to let this hideous slander go unpunished?"

I entreat you by our friendship, in the name of the feelings of affection and attachment that have existed between us to go more deeply into this matter. You will find it false. It is a wicked, vicious attempt to destroy an innocent woman. I refuse to be made an outcast. If you will not comply with this request I will come to Atlanta at the risk of public misconception, against my every inclination. All I ask is plain justice."

HOLD UP WOMAN IN AUTO; SEIZE \$3,000 DIAMONDS

Two thieves last night held up an auto driven by Mrs. Arthur L. Richtmyre of 5215 Winthrop avenue and robbed her of jewelry valued at \$3,000, while her mother and two children looked on. Mrs. Richtmyre is the wife of Arthur L. Richtmyre, secretary of the Imperial Tool and Manufacturing company.

After calling for her mother, Mrs. Julia Lydia Richtmyre, president of the Y. W. C. A., she was taken to the Imperial Tool and Manufacturing company at 972 Montana street. Mrs. Richtmyre had started home in her car. With the women were the two Richtmyre children, Georgette, 11, and Arthur, 10 years old.

In front of 972 Montana street the thieves forced Mrs. Richtmyre to stop her car. While one threatened her with an automatic pistol, the other compelled her to hand over three diamond rings. Without stopping to search for money, the pair then fled.

MODEL FOR OLD SILVER DOLLAR GODDESS RETIRES

Philadelphia, Pa., Jan. 31.—Miss Anna W. Williams, supervisor of kindergartens of the Philadelphia public schools, whose profile was used for that of the Goddess of Liberty on the "Bland" silver dollar, first coined in 1875, withdrew from active service today. Her retirement on a pension marked the closing of forty years in kindergarten work, during which she gained national fame as an educator.

Forty-six years ago Miss Williams was selected, after thousands of other girls had been rejected, to pose for the "Bland" dollar. The designer of the coin, George Morgan, who was brought to this country from England by the treasury department in 1874, said that Miss Williams' head was the nearest to perfect he had seen in England or America. Mr. Morgan is still the designer at the local mint.

In 1912 the "Bland" dollar was replaced with a new design.

STOLEN AUTO RALLIES BOMBERS

Kew-Forest, Ill. Jan. 31.—(Special.)—Bombers who obtained merchandise valued at over \$1,000 from stores of Bradford, early today were obliged to abandon their stolen auto after miles out of town. The automobile had been drained by the owner and would not move further. All loot was recovered.

## MERIT OPINION HITS STAFFS OF 3 CITY OFFICES

Hickson and Aids Must  
Face Examination.

In the same opinion which forces Dr. William Hickson and his assistants in the city psychopathic laboratory to compete for their posts in civil service examinations, Corporation Counsel Francis X. Busch yesterday asserted his right to name attorneys for the clerk and bailiff of the Municipal court.

Discussion of the latter phase of the ruling revealed that County Commissioner Charles N. Goodnow has acted as attorney for James A. Kearns, clerk of the Municipal court, for several years at an annual salary of \$5,000. As a member of the county board of former Judge Goodnow receives another \$5,000 yearly. Both he and his client are influential members of the Deeney faction.

Council and Olson Clash.

Mr. Busch's opinion, sought by City Treasurer John A. Cervinka as a guide for disputed salary payments, directs the civil service commission to proceed at an early date with the examination for applicants for the posts now held by Dr. Hickson and his assistants.

The ruling is the result of a clash between Chief Justice Harry Olson of the Municipal court and the city council over the latter's right to fix the number and salaries of court attaches, including deputy clerks and bailiffs.

Under authority voted by the Municipal judges, Chief Bailiff Dennis Egan and Clerk Kearns increased the salaries of their employees. Appropriations for the purpose were refused by the council and Egan obtained a writ of mandamus from Judge Joseph David to compel payment of the increases.

The State Supreme court ruled that neither the judges nor the council could increase the salaries of deputy clerks or bailiffs until the boosts had been approved in a popular election.

Made Temporary Appointees.

Under the same opinion, Dr. Hickson and his assistants are classified as city employees of the Municipal court, according to Mr. Busch's interpretation.

As a result orders were issued certifying them as "temporary appointees" until an examination can be held.

## LINCOLN HELD TO GRAND JURY FOR 2 MURDERS

Sanity Issue Ignored;  
He Tells Story.

(Picture on back page.)

A coroner's jury yesterday recommended before returning with its verdict that Warren J. Lincoln, Aurora's gentle lawyer, flower lover, and slayer, be held to the grand jury, without bond, on two charges of murder.

No question of his sanity was involved in the brief testimony which preceded the verdict. Lincoln himself took the stand and voluntarily told how he killed his second wife and her brother, Byron Shoup, and then disposed of their bodies.

The courtroom on the second floor of Aurora's city hall was jammed with curious townpeople. The mayor and other city officials were present. There were hundreds in the corridors.

Lincoln First Witness.

"I'm an attorney and a florist," said Lincoln, the first witness called, in answer to a question. "I have a greenhouse on the old Indian trail."

If Lincoln had any desire to take advantage of the growing impression that he is more fit for the insane asylum than the gallows, he did nothing to help his cause.

Mrs. Lina Lincoln and her brother, Byron Shoup, disappeared about the tenth day of January, 1923," said Coroner Eugene Norton.

"Yes," murmured the witness.

Admits Shooting Both.

"How did they disappear?" "I shot them both in the head—one with a rifle, the other with a revolver," came the reply. "It was early in the morning, just before daylight."

The coroner's jury was out twenty minutes before returning with its verdict and recommendation. It is expected that indictments will be voted next Monday, when Kane county's February grand jury is convened.

# SENATE ANNULS LEASES; DEBATES DENBY OUSTER

Doheny Recalled to Tell  
More of Deal with Fall.

(Continued from first page.)

...in the fight against the leases and the attacks upon members of his cabinet. The Democratic senators were with the President for nearly an hour, after which the President authorized the following statement:

"The President conferred with Senators Robinson and Walsh at his suggestion for the purpose of informing himself as to the trend of the oil lease investigation and in order to effect change suggestions for mutual help. President Coolidge and the two senators also discussed the matter of counsel, how to proceed, and the significance of the evidence."

**Robinson Makes Statement.**

Senator Robinson, upon returning to the cabinet from the White House conference, issued this statement:

"The President asked Senator Walsh and me to come to the White House this morning for a conference, and we went. During the conference important phases of the evidence as they relate to the circumstances surrounding the execution of the leases were discussed in some detail, and suggestions for helpful action were considered."

"There also was under discussion the subject matter of attorneys to represent the government. With respect to this, Senator Walsh and I feel that the President's choice having already been announced, the conference as to that came too late to accomplish anything."

"Under the practice and customs that govern such matters I feel that any further statement of details should come from another source."

## 'O CHICAGOANS NAMED

Associate counsel to assist Mr. Strawn and Mr. Gregory in the prosecution of the investigation for the President were announced later at the White House. They are R. H. Hollen and W. H. H. Jacobs of Chicago, associates of Mr. Strawn in his Chicago law firm, and Judge J. Crawford Biggs of Raleigh, N. C., a former assistant attorney general who is familiar with the history of the Elk Hill oil reserve in California, having acted as government prosecutor in 1904 when these lands were recovered from the Southern Pacific railroad.

The President's insistence that the naval oil leases were not discussed in meetings of the cabinet so far as he knew was substantiated today by three members of the Harding cabinet. Secretary of State Hughes, Secretary of War Weeks, and Secretary of Commerce Hoover.

As long as none but the Democrats were charging that the President, then vice president, must have known all about the oil leases, from hearing them talked over in the cabinet administration heads declined to be drawn into the controversy.

**Hughes Answers Norris.**

Yesterday, however, Senator Norris (Rep., Neb.), in his senate speech, sought to reflect on Secretary Hughes, insisting that he, a trained lawyer, should have protested against the oil deal when its details were disclosed in the Harding cabinet deliberations.

"The questions of the legality or propriety of the oil leases now under discussion in congress," said Secretary Hughes, "were never brought before me."

# SINCLAIR TO RETURN IN TWO MONTHS, HE SAYS IN LONDON

BY JOHN STALL.

(Chicago Tribune Foreign Service.)

LONDON, Jan. 31.—(Tribune Radio.)—"I am here for the purpose of holding conferences with Londoners interested in my oil affairs," Harry W. Sinclair, the American oil magnate, told *THE TRIBUNE* this afternoon.

"I will be here until Saturday or Sunday, when I will return to the continent. My future movements are uncertain, but I have every expectation of taking my projected trip to southern France. I think it unlikely that I will be in the United States for a couple of months yet."

the cabinet for its decision. My opinion upon these questions was never sought or expressed, either in or out of the cabinet. If the oil leases were ever referred to in cabinet meetings, and I do not recall that they were, it was certainly only by way of general reference and without requiring any responsible action, which, of course, I should not have been willing to take without examination of papers and statistics. Having plenty of work in the department of state, I had no occasion to consider the questions of law and fact involved, and I have not been called upon to take any responsibility in the matter."

Secretaries Weeks and Hoover issued similar statements.

Senator Trammell (Dem., Fla.) sought to have the Robinson resolution calling for Secretary Denby's resignation attached, as an amendment, to the Walsh resolution authorizing the President to institute legal proceedings in the oil leasing scandal. This led to much debate until Senator Trammell was induced to withdraw the amendment.

## CALLED LYNCH LAW

Following the adoption of the Walsh resolution the senate promptly took up the Robinson resolution. Regular Republican leaders, including Senator Lodge (Rep., Mass.) and Senator Hale (Rep., Me.), chairman of the naval affairs committee, vigorously opposed it. Senator Lodge likened the measure to "lynch law," and Senator Hale predicted it would "redound to the everlasting shame of the senate." Both suggested that the proper method of procedure would be an impeachment resolution, which would have to originate in the house.

Efforts are on foot to effect a compromise. Senator Ball (Rep., Del.), with the backing of the regulars, has prepared a substitute which simply requests the President to call for the resignation of any government official who is guilty of misfeasance or malfeasance in connection with the oil leasing and omits all mention of Mr. Denby's name.

Some insurgent Republicans, notably Senator Borah (Rep., Idaho), Senator Norris (Rep., Neb.), and Senator Howell (Rep., Neb.), are inclined to support such a modification as Senator Ball proposes, because they believe impeachment proceedings should be instituted against Denby. The judgment of leaders when the senate adjourned was that, while the vote would be close, the

Robinson resolution would be adopted. Senator Lodge held that impeachment was the only method by which congress constitutionally could bring about removal from office.

**Denby's Upheld Denby.**

"I have another objection to this proposed legislation. I am as aware as anybody can be of, and appreciate fully the failure of the secretary of the navy before the committee to give a proper statement of his action and the reasons for his actions in regard to his signature upon the leases. He ought to have known as a matter of the most general information, what those leases were and the general details about them which are now known to all the world."

"I do not agree with him in his interpretation of the right in his department to make those leases. I think it was his duty to have resisted, and to have followed the law by so doing, the transfer of the power given by congress to the secretary of the navy in regard to oil lands."

"I do not approve of the public statement which he made on the day before yesterday, I believe."

But he said he had seen no evidence to show the secretary of the navy was other than honest or was "guilty of anything more than a very serious mistake, lack of competence, if you choose to call it so."

**"Give Him a Chance."**

He objected to forcing him from office without opportunity to defend himself, "without giving him any opportunity whatever to have these rights which are secured to the means of shaking their upon the streets of this great city."

"It is lynch law; that is what is attempted," declared Senator Lodge. "Because we feel that he may have been misinformed, that he may have been incompetent in his office, that is not a crime, and we give him no chance to be tried, but we condemn him in the presence of the whole people of the United States unheard, undefended, unprotected by any of the

many protections which are cast about every American citizen who is brought before his fellow citizens for trial."

"Mr. President, it is impossible for me to vote for an amendment of that kind, for I think it is an outrage on every principle of justice and fair trial."

**Senate Advises President.**

Senate President of Nevada, Democrat, took issue with Senator Lodge. He pointed out it was a proper function of the senate "to advise the President with regard to the initiation of a treaty."

"The senate," he said, "is equally responsible for the appointment of Mr. Denby as secretary of the navy. He could not have held the office which he now holds except for the advice and consent of this body. They advised and consented to his appointment upon the theory undoubtedly that he was fitted for the position. If it now transpires that he is not fitted for the position, it seems just as appropriate for the senate to advise the President of the opinion of this body as it was originally to advise the President that they believed he was fitted for the nomination."

"Now I wish to say I know of no direct evidence which indicates any criminal action upon the part of the secretary of the navy," Senator Pittman continued. "The most that I have in mind from the evidence which I have heard is that he was intimately connected with what has transpired to be a corrupt action. At present I am of the opinion that his connection with it is due entirely to two things—to neglect of duty, in the first place, and to an incapacity to take care of the business entrusted to him as secretary of the navy."

## REFERS TO ROOSEVELT

Senator Copeland (Dem., N. Y.) reviewed the circumstances surrounding the order transferring authority from Denby to Fall and mentioned the part taken therein by Col. Roosevelt, assistant secretary of the navy. He

repeatedly expressed the view that if Mr. Denby knew nothing about the policy supported by the committee of experts in fuel oil, part of them high officials of the navy, he was "incompetent and unfit to hold office."

Mr. Denby, said Senator Copeland, "has shown such incompetence that he should not be permitted to continue in office."

He said one must either come to that conclusion or believe "he had conspired with Mr. Fall to rob the government," and he "did not believe Mr. Denby had done that."

Senator Hale defended Secretary Denby and insisted the senate should not call for his resignation without giving him a hearing.

**ASSOCIATED WITH STRAWN.**

Both Walter H. Jacobs and Richard H. Hollen are associated with Strawn in the practice of law. Mr. Jacobs has been with the firm of Winston, Strawn & Shaw for nineteen years and a partner in the firm since 1912. Mr. Hollen has been with the firm for about nine years.

Attorney Jacobs lives at 5514 West Erie street and Mr. Hollen at 1730 East 56th street. Mr. Hollen left for Washington at noon yesterday in response to a telegram from Mr. Strawn. When told by a Tribune reporter last night of his appointment as associate counsel in the oil investigation, Mr. Jacobs said he had received a telegram from Mr. Strawn asking him to be in Washington Monday, but had not been informed of his appointment.

**Four Horns to This Dilemma.**

Senator Heflin took the floor and said Secretary Denby was either "incompetent, careless, indifferent, or crooked."

"No sympathetic appeal will go," he said. He called attention to newspaper reports today that President Coolidge will not permit Denby and Daugherty to resign under fire and declared this

was "an indictment against the President."

Senator Heflin contended that Assistant Secretary of the Navy Roosevelt had much to explain. Senator Hale and Senator Pepper (Rep., Pa.) joined in defending Roosevelt. Senator Hale said that Col. Roosevelt had insisted on certain changes to strengthen the position of the navy in the executive order transferring jurisdiction over the naval oil reserves. Col. Roosevelt, he said, wanted a provision to give the navy department final "say" in any transaction concerning the disposition of the lands.

"And then the navy department lost its voice and never said anything," retorted Senator Heflin.

**ASSOCIATED WITH STRAWN.**

Both Walter H. Jacobs and Richard H. Hollen are associated with Strawn in the practice of law. Mr. Jacobs has been with the firm of Winston, Strawn & Shaw for nineteen years and a partner in the firm since 1912. Mr. Hollen has been with the firm for about nine years.

# MISS LAPE FINDS BOK COMMITTEE IS STUBBORN, TOO

(BY A STAFF CORRESPONDENT.)

Washington, D. C., Jan. 31.—(Special.)—Action today by the senate propaganda committee indicates that it is determined to compel officers of the BOK peace award to disclose all circumstances attending organization and conduct of the peace plan.

The committee notified Miss Estelle E. Lape, executive director for Mr. Bok, that she would have until Feb. 4 to decide whether she should answer questions propounded to her at the hearing Tuesday. On that occasion Miss Lape declined to tell what methods had been followed in submitting the peace plans to the jury of award. When Miss Lape appeared to resume her testimony today Senator Moses (Rep., N. H.), chairman, announced that by a vote of 4 to 1 the committee had decided that the questions directed to Miss Lape were within the purview of the committee "and pertinent to the investigation."

He stated the committee had ample powers under the law to compel attendance of witnesses and to enforce production of papers and answering of all questions which it deems proper. Committee action on Miss Lape's refusal applies also to the case of Mr. Bok.

# Illinois Central System Shows Why Railroads Are Interested in Tax Revision

Proposals for reductions and readjustments of federal tax levies have been made. While there may be differences of opinion as to method, there can be no doubt about the wisdom of lightening and equalizing this burden of governmental expense which is felt by every person in the country.

This tax burden is borne by those who often do not realize that they pay taxes at all. It has been estimated that one dollar out of every six spent by consumers goes for taxes—federal, state, county and municipal. Taxes, because they enter into the cost of production, are in the food we eat, the clothes we wear, the rent we pay.

Every business man who has any control over his selling prices adds his taxes to his operating costs, then not infrequently adds a little more to make it even money and passes the total on to his patrons. Taxes upon buildings are paid in the end by rents. Taxes paid by manufacturers and distributors are passed on to the consumer. As tax burdens increase the cost of living they create a demand for increased wages, and increased wages in turn are reflected in higher prices paid by everyone. Taxes are a part of the cost of conducting every form of business, and they inevitably form a part of the prices established for the goods or services produced in every field of productive industry. Regardless of who pays the taxes in the first instance, in the end they are paid by farmers, business men, mechanics, laborers and all other classes of our population.

Indirect taxes are paid by more persons than direct taxes. Among those who pay indirect taxes are the patrons of the railroads. Taxes the railroads pay are a part of the cost of supplying transportation service and must be borne by the public in freight and passenger rates. Railway taxes in 1923 amounted to \$330,000,000, 5.2 per cent of their gross earnings, or almost exactly \$3 for every man, woman and child in the United States. But the \$330,000,000 paid by the railroads in 1923 for taxes represented only their direct taxes. Indirect taxes enter into the costs of all materials and supplies used by the railroads in their operation and are necessarily passed on to their patrons.

There are now extant more than \$12,000,000,000 of tax-exempt securities. Aside from the fact that such securities allow part of our population to evade income taxation, the attractiveness of such investment has caused railway investment to appear unattractive by comparison. To the extent that the ready sale of tax-exempt securities encourages civic extravagance, it increases taxation in general and tends to saddle undue burdens upon the public. To the extent that such sale helps to keep capital out of the railroads, it prevents the railroads from installing the modern facilities that increase efficiency and make possible reductions of rates.

A way must be found to change the channel of investment of owners of large incomes from tax-exempt securities into productive enterprises where the investors assume some of the risks. If it is necessary to lower substantially the surtaxes of those who have large incomes in order to encompass this change, it is in the interest of all of us to lower them. Let us not make the mistake of injuring all classes of our people by trying to punish one class.

Our purpose in making this statement is to point out to our patrons that taxes are reflected in the rates which they pay for transportation and to urge them to help themselves and also help us by putting forth every proper effort to bring about a reduction in taxes. We believe that few persons realize the extent to which freight and passenger rates are affected by direct and indirect taxation.

Constructive criticism and suggestions are invited.

C. H. MARKHAM,  
President, Illinois Central System.

## Dever Praise of Ald. Wallace Makes Adamowski Quit Slate

BY PARKE BROWN.

Indignant because Mayor Dever  
spoke at a banquet given in honor of  
Ald. Thomas O. Wallace Wednesday  
night, Ald. Max Adamowski withdrew  
yesterday as a candidate for clerk of  
the Circuit court on the regular Demo-  
cratic ticket.

Ald. Wallace is the candidate for  
clerk of the Circuit court on the regu-  
lar Democratic ticket. It is considered  
almost certain that each of them will  
win his primary battle and that they  
therefore will oppose each other in the  
election campaign. That a Democratic  
mayor should speak words of praise  
for a Republican candidate under such  
circumstances was, to Adamowski,  
unforgivable.

**Picture Was the Climax.**  
The crushing blow of the whole  
thing, it is understood, was the photo-  
graph taken at the Wallace banquet.  
It showed a group that included Ald.  
Wallace, Mrs. Medill McCormick, Mayor  
Dever, and A. A. Sprague, commis-  
sioner of public works and regular  
Democratic choice for United States  
senator.

The Lincoln Square Business Men's  
association, which has been active in  
the Wallace campaign, declared that  
before either Adamowski or Wallace  
had been chosen as candidates at the  
coming primaries, Mayor Dever and  
other Democratic politicians a few hours  
before the banquet. They descended on  
Mayor Dever and demanded that even  
at that late hour he cancel his en-  
gagement. He replied that the ban-

quet was not a political one, but a non-  
partisan tribute to Ald. Wallace by the  
business men of his ward. When  
Adamowski saw the photograph in  
The Tribune he withdrew from the  
slate.

The slate committee desires to keep  
the Circuit court place for another  
Pole, and Leo Winecki, commissioner  
of public services, is under considera-  
tion.

**Best of State Indorsed.**  
With that place left vacant the en-  
tire slate was indorsed yesterday by  
the county managing committee. The  
list of candidates for county, sanitary  
district and municipal court adminis-  
trative offices have been published.  
The indorsements for the Municipal  
court follow:

**CHIEF JUSTICE.**  
Marvin E. Barnhart.  
**ASSOCIATE JUSTICES (Full Terms).**  
(Three to be nominated.)  
John J. Rooney, Thomas J. Mullin,  
Joseph S. La Buy, Thos. F. McNahan,  
John F. O'Connell, Eugene L. McGarry,  
Joseph Burke, Charles F. Brown,  
Peter H. Schwab, J. M. Lavalant, Otto C. Rentner.

**\*Now on bench.**  
**ASSOCIATE JUSTICES (Vacancies).**  
(Three to be nominated.)  
M. D. Harrison, F. B. Aligretti,  
Frank M. Padden.

**Awaits Convention Action.**  
No action was taken on the vacancy  
left by Judge Charles A. McDonald's  
resignation from the Superior bench,  
that nomination will be made in  
convention.

The regular Republican organization  
has not taken up its slate for Municipal  
court justices and will not until  
after Feb. 3, the first day for filing  
petitions for county and state offices.  
The first day for filing Municipal court  
petitions is March 10.

## 'VOTES IS VOTES,' DENEEN'S VIEW TOWARD SMALL

He Will Be Neutral in the  
State Fight.

BY OSCAR HEWITT.

Thomas F. Jakubowski, convicted of  
murder in 1920, was seen on the street  
yesterday by a man who has known  
him for years. It was assumed before  
that he was in the penitentiary, where  
he had been sent for a term of twenty-  
five years. Inquiry developed that he  
had been pardoned by Gov. Len Small.  
Jakubowski was the business agent  
of the hodcarriers' union who shot and  
killed a union street car motorman  
who was working extra as a building  
laborer in spare hours to pay his wife's  
doctor bills and purchase a little home.  
The motorman, while a member in  
good standing in his own union, did  
not have a card from the hodcarriers'  
union.

**Asked Death Penalty.**  
The murder had so few, if any, miti-  
gating circumstances that Assistant  
State's Attorney John W. Cashes  
asked the jury to decree that Jakubow-  
ski be hanged. The verdict, however,  
was twenty-five years in Joliet. Jakubow-  
ski arrived at the penitentiary July  
6, 1920, but was turned out by Gov.  
Small on Aug. 3, 1923.

The slain motorman, Bernard J.  
O'Reilly, was 23 years old and lived in  
a four room flat with his wife and a  
2 year old daughter at 3751 Grace street.  
O'Reilly's hours on the street car were  
from 1 in the afternoon to 9 in the  
evening. His wife had been ill in a  
hospital. The doctor urged that she be  
sent away from Chicago for a time to a  
milder climate. O'Reilly was attempt-  
ing to buy a little home. His wages  
were insufficient on the car to meet  
these bills and provide a living for his  
family.

**Goed to Work as Laborer.**  
So, O'Reilly got a job as a laborer  
at 75 cents an hour on a building be-  
ing erected at 4617 Irving Park bou-  
levard.

**EX-HUSBAND OF  
KORETZ'S FRIEND  
IN INDIA TALKS**  
John Taggart, former husband of the  
mysterious Jessie Taggart, who has  
been cabling to Leo Koretz from India  
under the name "Watson," was found  
last night at the Edgewater Beach  
hotel.

"Jessie and I were divorced fifteen  
years ago," Taggart explained. "Since  
then I have seen her occasionally. I  
never have met her since I heard of  
her until her swindler broke into  
print. I haven't any idea how Jessie  
became acquainted with him or why  
she was touring the world, apparently

**6 DOCTORS HERE  
LOSE LICENSES  
IN CONNECTICUT**  
Six Chicago doctors have been  
barred from further practice in Con-  
necticut, according to a dispatch yes-  
terday from Hartford. The six were  
included in a group of 129 whose li-  
censes were revoked on charges of  
"fraud and deceit." Most of the doc-  
tors, it was charged, bought their cre-  
dentials from Kansas City and St.  
Louis diploma mills.

Chicagoans named in the proceed-  
ings were: Henry J. Schireson, room  
200, State-Lake building; Sigurd Jer-  
gens, 538 East 47th street; Nicholas  
A. Perri, 106 North Hamilton avenue;  
Max Feldman, 3252 Polk street; Monte  
Val Robinson, 3505 Indiana avenue,  
and Edward A. Kesten, 2115 West Di-  
vision street. The first two hold diplo-  
mas from the Kansas City College of  
Medicine and Surgery, and the others  
are graduates of the St. Louis College  
of Physicians and Surgeons.

John Taggart, former husband of the  
mysterious Jessie Taggart, who has  
been cabling to Leo Koretz from India  
under the name "Watson," was found  
last night at the Edgewater Beach  
hotel.

"Jessie and I were divorced fifteen  
years ago," Taggart explained. "Since  
then I have seen her occasionally. I  
never have met her since I heard of  
her until her swindler broke into  
print. I haven't any idea how Jessie  
became acquainted with him or why  
she was touring the world, apparently  
at his expense. Jessie is about 40  
years old now."

# PREMIER CLOSES JAPANESE DIET IN HISTIC BATTLE

## Cells Elections as Mobs Assail His Government.

BY RODERICK MATHESON. (Special Tribune Staff Writer.)

TOYOKO, Jan. 31.—Political agitation in Japan is at fever heat. Following disorders the diet was dissolved today and a general election called.

Premier Kiyoura is taking steps to dissolve the house of representatives to which the opposition demanded that he resign without dissolving the house. The opposition, which is in a majority, also demanded that it be given control of the government.

Violent disorders, during which both sides and books were thrown and streets were used, occurred in the morning. The government failed to protect the train on which the opposition leader, Yamaguchi, was returning from Osaka yesterday. The train was heaped with rocks and thrown at Nagoya and the train narrowly escaped being wrecked.

**Invasion of House.** The opposition intimated that the government was winking at the attempts to kill the opposition leaders. They failed to get a reply from the government. When the minister of railways rose to respond on the floor of the lower house the room was crowded by several strangers wearing masks.

The invaders advanced to the treasury bench. The house was thrown into a tumult, with opposition members making the room from which they wanted the minister of railways.

The compound of the house of peers was invaded by an auto load of thugs who were immediately arrested. Manifestations are being held in every convenient space near the diet. The whole agitation apparently was planned to intimidate the ministry into resigning. The diet took a recess today to recess its dissolution was announced.

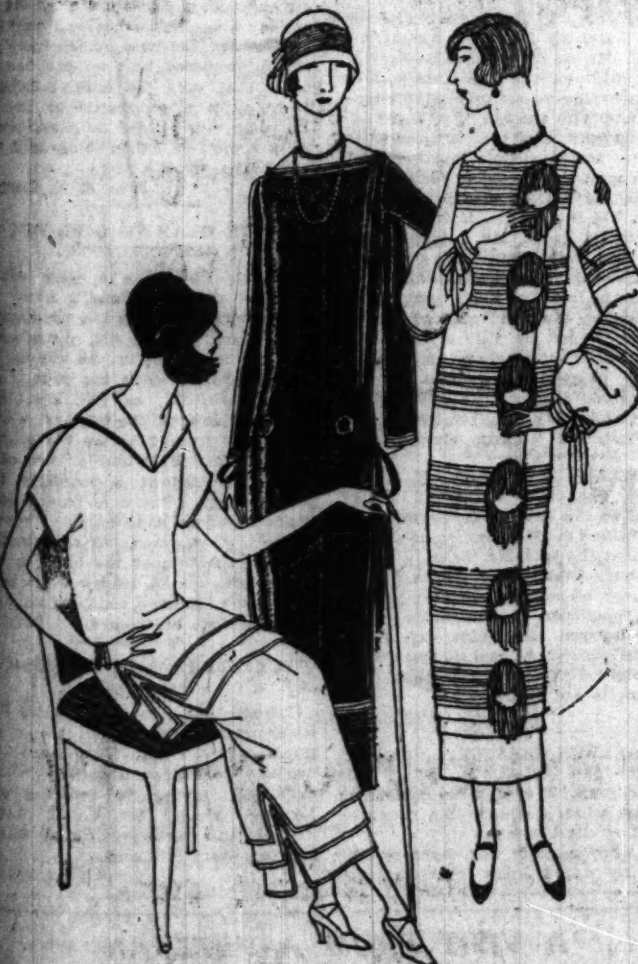

Hundreds of police were concentrated near the diet during the day.

**Fear of Disorder.** Throughout the city crowds are gathering and meetings are being held. The police fear that the mobs will march on the diet and possibly manhandle the supporters of the government.

The press, politicians and others are constantly referring to the possibility of a social revolution, creating widespread uneasiness. However, it is impossible to detect any agitation against the throne, which all parties say they are protecting.

Home politics are overshadowing the American question which some groups are trying to bring up as a counterbalance diverting the public from the home issue.

# PEACOCK JURORS LOCKED UP TO FIX FATE OF 4

The jury trying Everett R. Peacock, Albert Springer, Charles Gascon, and Axel Satterberg, all former officials, on charges of conspiracy to loot and wreck the Milwaukee-Irving State bank, was locked up shortly after 10 o'clock last night on orders of Judge Harry Lewis of the Criminal court.

The case was given the jury shortly after 4 o'clock following arguments by Assistant State's Attorney Samuel Hamilton and by Ben Short, counsel for the defense.

The four men are accused of conspiring to steal funds of the bank by means of overdrawn checks.

# U.S. MAY SEVER ITS RELATIONS WITH HONDURAS

Washington, D. C., Jan. 31.—(Special.)—The United States will sever diplomatic relations with Honduras unless that country gives immediate assurance that an election will be held as soon as possible to determine the successor to President Gutierrez, whose term of office expires at midnight. It was declared today at the state department.

It is understood that the U.S.S. Rochester, recently ordered to Colon for duty with the fleet, will be placed in readiness to return to Panama bay, in Honduran waters.

The situation in Honduras has given the state department great concern for a number of weeks following the recent elections, when neither Señor Carlos, Bonilla, nor Arana received a majority of votes.

President Gutierrez announced that he would remain in office after Feb. 1, as dictator. He sent a circular letter to this effect to all the military and civil commanders in Honduras. According to information received here today from high authority this action, if taken by President Gutierrez, will cause armed revolt.

# KEEP SHIPS OUT OF RUSSIA PORTS, REDS TELL U.S.

MOSCOW, Jan. 31.—(United News.)—Maxim Litvinoff, assistant secretary of foreign affairs, has cabled Secretary Hughes protesting against the entrance into Russian ports of two vessels under control of the United States government.

M. Litvinoff states that the Bear entered Kolushina, in the Gulf of Sanayova, on the Russian Pacific coast, in September, and also that United States destroyer No. 213 entered Batumi, a Black sea port, on Jan. 15.

He asserts that the acts constitute breaches of international law, inasmuch as the permission of the government or port authorities for the entry was not asked.

The soviet government is obliged to protest against such action on the part of ships directly under the control of the United States government and expects that the latter, professing the necessity of strict observation of international laws, will take proper measures to prevent a repetition of such incidents in the future, the cable says.

# War on Capital.

MOSCOW, Jan. 31.—(By the Associated Press.)—The government's policy, which Leo Kamenoff, spokesman for the council of commissars, outlined as an offensive against private capital and the worst forms of what has been known as the new economic policy, was adopted unanimously by the federal congress of soviet here this afternoon.

# JENNINGS' HEIR STARTS BATTLE FOR \$12,000,000

Within a month Charles E. Miner, 31 years old, will go back to his home in Louisville, Ky., an heir to \$12,000,000 or an heir to empty dreams. If he can prove in Judge Henry Horner's Probate court that he is the son of the late Edwin B. Jennings, eccentric millionaire, he will go back with the \$12,000,000. If not he will depart as he came a few days ago, a penniless ex-service man.

Miner started his battle for the millions in Judge Horner's court yesterday when Attorney Charles C. Hoel filed a petition seeking to set aside the claims of seven cousins of Jennings, who now stand as the heirs.

Judge Horner ruled that this petition was not specific enough, and continued the hearing until Feb. 15.

Edwin B. Jennings' fortune amounts to \$4,000,000. Miner says he is the only son of Jennings through a common law marriage of the latter with Ida Miner, who died in 1913. Miner's petition sets forth that "the decedent, previous to July 1, 1905, entered into a valid common law marriage with Ida Miner," and that he "notoriously recognized" Ida Miner as his wife and Miner as his son. It adds that Jennings lived with Ida Miner "for thirty years continuously, until her death in 1913."

Through proof that he is Edwin B. Jennings' son Miner hopes also to prove that he is the grandson of Jennings' father, John Drake Jennings, who died many years ago, and thus lay claim to another \$4,000,000 left by the elder Jennings.

# Woman Aged 70 Burns to Death in Accident

Mrs. Barbara Baled, 70 years old, received fatal burns yesterday when her clothing caught fire while she was in the home of her daughter at 1735 West 15th street. She was moving her chair nearer a stove when her sleeve brushed the stove and burst into flames. She died last night in the county hospital.

## The February Sales

### DOMESTIC RUGS

*The Best Values in Many Years*

THE February Sale of Domestic Rugs, always important in its value giving, is this year more notable than ever. The values are such as we have not been able to present in many years, and the collection is unequalled in variety of patterns, sizes and weaves.

The prices are the lowest possible, lower, indeed, than ordinary sale prices because of the special advantages of our large buying power. Such a combination of low prices, quality and variety, indicates the breadth of this February's Sale.

*Home-Grass Rug Room—Third Floor, South, Wabash*

### DINNER SETS

*Many Open Stock Patterns*

INCREASED interest is attached to the February Sale of Dinner Sets this year because the Sale prices are markedly lower than usual on every Dinner Set in the collection except Wedgwood and Lenox. The number of patterns is larger and more attractive than ever; many patterns are Open Stock, and pieces may therefore be easily replaced; and the quality is excellent. There are Dinner Sets in American and English Semi-Porcelain, Bavarian and French China and Field Japan China.

## BRITISH LABOR STARTS TO CUT TAXES OF POOR

[Chicago Tribune Foreign News Service.]  
[Copyright, 1924, by The Chicago Tribune.]  
LONDON, Jan. 31.—[Tribune Radio.]—Public interest in England is now concentrated on the budget which Philip Snowden, Socialist chancellor of the exchequer, is now preparing at the treasury in Whitehall and on which the program of the new government will be judged. It will be impossible in the time available for Mr. Snowden to make any important changes in the main figures of revenue and expenditure. He is faced by the facts of the situation, but within these figures it is possible for Mr. Snowden to do a great deal.

It is stated that he is working now on a plan to shift taxation from the high incomes. Compared with American conditions, the poor man in England pays more than his share of taxation, and Mr. Snowden is determined to change this. He is credited with a plan to reduce income taxes on low incomes while increasing the super-tax as much as a shilling on the pound, and he also is said to have proposed either to reduce or wipe out tea, coffee, and sugar duties, giving the poor man a duty free breakfast table.

To Cut Naval Estimates.  
All this can be accomplished without any change in the total, but he is looking for a windfall of about \$50,000,000 (\$255,000,000), due to the maturity of certain high interest loans, which can now be refunded at a much lower rate, and he is said to contemplate also reducing the allowance for the sinking fund in the annual budget.

If large savings can be made, substantial sums will be assigned to the ministry of health for loans to local authorities to finance works to relieve the unemployed.

Mr. Snowden has also notified the admiralty that its estimates must be cut \$5,000,000 (\$25,250,000), and he is now said to be investigating the war office estimates, with a similar saving in view.

May Honor T. P. O'Connor.

Prime Minister MacDonald, who returned from Scotland tonight, still has several offices to fill. Among them is that of lord chamberlain, who, among other things, acts as censor of plays, and it is stated that he has offered the post to T. P. O'Connor, famous Irish Nationalist.

## HERE'S A CHANCE FOR THREE IDEAS TO WIN \$25,000

### Pick Best Magazine Name—That's All.

This \$25,000 Name Contest is getting to be talked about nearly everywhere folks meet.

"Have you sent in a name?" is the question they ask, and that usually starts a discussion.  
If you haven't already heard, the owners of THE TRIBUNE and THE NEW YORK DAILY NEWS will pay \$25,000, in three big cash prizes of \$10,000, \$4,000, and \$1,000 for the best names and slogans submitted for their new national weekly magazine, publication of which will begin early in the spring. A page advertisement in next Sunday's issue of this newspaper will contain the rules of the competition in full. Be sure to read the rules carefully before sending in a suggestion.

Big Money for an Idea.  
Talk this name question over with your friends. You needn't tell them what name and slogan you're going to suggest, but get their ideas. They may help you. In addition to submitting a name and a slogan, it will be necessary for you to tell briefly—in not more than 100 words—why you think your suggestion is the best. That's all. And there's a lot of money in it!

Here are some of the names and slogans good, bad, and indifferent, picked out of yesterday's contributions. Look them over, and then step on the starter of your own think tank!

"THE ARK—Everything's In It."

But O, how ancient!

"COSMOCOLOR WEEKLY—The Magazine for Every One."

"THE IRIS—A Magazine in Colors."

"THE CABINET—Everything of Interest."

"THE SIREN—Penetrates the Gloom."

"THE GENERAL WEEKLY—America's Finest Magazine."

"THE BADGE—A Magazine of Distinction."

"ALL IN ONE—The Variety Weekly for the Home."

"PREMIER—Ahead of Them All."

"LOCAL COLOR—Known by Its Tone."

"PRISMATIC—Reflecting Every Shade of Human Thought."

"THE CHOSEN WEEKLY—It Quite Engulfs All Human Thought."

"THE COSMORAMA—The World in Pictures."

"THE GEM—Precious Much for Precious Little."

## OUST CARS FROM CITY STREETS TO WIN 5 CENT FARE

Akron, O., Jan. 31.—Akron tonight stood on the verge of the worst street car situation in its history, following orders from the city to the Northern Ohio Traction and Light company to withdraw its city transportation service on the expiration of its twenty-five year franchise at midnight. All street car service ends at 2:30 tomorrow morning, when cars reach the barns after their last trips.

The situation was brought about by failure of traction and city officials to agree on a rate of fare for the new franchise. City officials wanted a continuation of the 5 cent fare. Company officials demanded 7 cents, but finally agreed to a temporary franchise at 6 cents. This the city rejected.

Just how far the city would go in its determination to bar interurban and suburban cars was a matter of conjecture tonight. No word was forthcoming from Mayor D. C. Rybolt's

office as to whether these cars would be allowed to use the tracks within the city limits.

Meanwhile the traction company was making plans to run both interurban and suburban cars. The suburban lines include Cuyahoga Falls, Xenia, and Barberton. Crews of these lines were ordered to discharge and pick up suburban passengers only. With more than 200 sedans brought here by H. B. Firestone, rubber manufacturer, a close friend of Henry Ford, and a fleet of buses secured by city officials, Mayor Rybolt declared he will provide Akron with the finest transportation system in the country.

## Detectives Fire at Blackmailers on Roof

Two detectives yesterday emptied their guns at two would-be blackmailers, who escaped unhurt.

Charles E. Chapman, jeweler at 122 South Halsted street, had received numerous letters demanding \$7,000. He notified Chief of Detectives Michael Hughes, who assigned Sergeants Thurnell and Phelan. They waited, hidden on a roof near Chapman's place of business. When the two blackmailers appeared the detectives opened fire, but without result.

## No More Gray Hair —Says Science

Wonderful Clean,  
Colorless Liquid  
Restores  
Original Color

Results in a Week  
Science again has scored a triumph in the discovery of a very remarkable liquid known as Kolor-Bak. If you are gray, just apply this liquid to the hair and scalp and your hair will soon take on the actual color it had in the past. Not a trace of grayness will remain.

Kolor-Bak comes in the form of a clean, colorless liquid, containing properties which quickly restore the lost color to the hair and give it renewed vigor. And note that the one preparation is for all colors of hair. No special solution required for each color—no samples of hair required.

You will find also that with Kolor-Bak the hair has the same shade throughout. It does not appear streaked, faded or "dyed."

Every scientist, every physician, knows that gray hair is hair that has ceased to receive its normal supply of coloring matter or pigment from certain tiny cells (called follicles or papillae) in the scalp, because these cells have become inactive from illness, shock of some kind, scalp disease, dandruff, infection, neglect of the hair or lack of circulation, etc. But no matter what the cause of the grayness, it is simply amazing to see how it disappears when Kolor-Bak is used. It is a proved substitute for the natural pigmentation.

## OREGON TRACKS DOWN REBELS BY SWIFT CAVALRY

BY JOHN CORNYN.

(Chicago Tribune Foreign News Service.)  
Portland, Jan. 31.—The Chicago Tribune's  
Laramie, Guanajuato, Mex., Jan. 31.—The turning point of the struggle  
between the federal forces and the  
rebels for central Mexico was reached  
today. Hereafter the policy of the  
war department has been to concen-  
trate heavy bodies of infantry, cavalry,  
and artillery, hoping to induce the in-  
surgents to a decisive battle.  
In the seven weeks that I have been  
with Oregon's army of the west the  
insurgents have refused battle when  
numbers were equal.

Change of Policy.  
At the conference between Pres-

dent Oregon and his foremost gener-  
als on the Guadalajara front two days  
ago a new war policy was adopted. In-  
surgents will be left to guard the im-  
portant points along the railways, espe-  
cially those favoring the concentra-  
tion of troops and the transmission of  
war supplies.

The 3,000 cavalry will be sent to  
hunt the enemy tenaciously. Many  
members of the infantry are former  
cavalry men, and almost all will be  
mounted as soon as more horses ar-  
rive from Texas and other southern  
states.

The work of recruiting for the cav-  
alry is going on rapidly in the north-  
ern states where the men are notably  
good horsemen.  
Large bodies of insurgent cavalry  
were seen last night between here and  
Mordida.

About 6 a. m. today Gen. Medina  
Verria, with Gen. Claude Fox at the  
head of a considerable force, came  
upon some 150 enemy leading a large  
funt outside the city. Pursuit began  
immediately and the insurgents were  
forced to leave their horses, which were  
all captured.

A running fight took place in the

hills, during which the government  
forces had one officer killed and three  
wounded and the enemy also killed  
and numerous wounded, some of which  
were carried off by their friends or es-  
caped.

Aviators who explored the country  
about Mordida report that the insur-  
gents there are preparing to vacate the  
city and are in retreat toward Guadala-  
lara by the southern part of Lake Cha-

Tribune Man in Hospital.  
Mexico City, Jan. 31.—Frederick  
Wright, correspondent for this Trib-  
une, is in a hospital at Esperanza with  
three broken ribs, internal injuries,  
and severe body bruises sustained  
while with the advance lines of the  
federal troops which smashed their  
way into Esperanza and ousted the re-  
bels on Jan. 28. Mr. Wright's injuries  
proved more serious than the first re-  
ports indicated. Throughout the cam-  
paign of Oregon's army of the east,  
which has Vera Cruz as its objective,  
Mr. Wright has been with the advance  
troops.

urday evening at a meeting of the Chi-  
cago club in their rooms at Hotel La Salle.

## MINERS PLEDGE WAGE CUT FIGHT; DEFER SHORT DAY

(Chicago Tribune Foreign News Service.)

Indianapolis, Ind., Jan. 31.—(By the  
Associated Press.)—Forces of the  
United Mine Workers of America were  
pledged by their delegates in conven-  
tion here late today to fight against  
any wage reduction, but decided at the  
same time to defer their demand for  
a shorter workday. The vote was  
overwhelming.

Tomorrow the convention will vote  
on the proposal of the scale commit-  
tee that they attempt to secure a wage  
contract for a term of four years.

A renewal of the present wage con-  
tract for four years, with no reduction  
in wages, was the recommendation of  
the scale committee (this afternoon).  
The committee recommended that

the contract be negotiated with  
the operators at Jacksonville, Fla.,  
Feb. 11 go into effect on April 1, 1924,  
and continue in effect until March 31,  
1925, based on the central competitive  
field, as have been previous contracts.

Insurgents Fight Renewal.  
Opposition to the proposal for a re-  
newal of the contract was started by  
insurgents who demanded a six hour  
day and five day week, but they weak-  
ened before the united front of all dis-  
trict presidents and the three inter-  
national officers.

President Frank Farrington of the  
Illinois district, chairman of the scale  
committee; Vice President Philip Mur-  
ray, and Secretary William Green ar-  
gued that the union is not in condi-  
tion to wage a fight for a shorter  
workday, that the public will not sup-  
port such a demand, and that the op-  
erators would welcome it.

"The operators want us to fight,"  
declared International Secretary Green,  
"but we're not going to when they  
want it. We'll choose our own time  
and fight when we know we can win."

When I think that time has come, as  
I will, I'll say fight, and I'll stay in it

till we win. But we must have our  
house in order."  
Delegates from West Virginia asked  
if the union would be with them in the  
fight against reductions they thought  
sure to come. Farrington answered  
that the union would be with them  
throughout.

"Should we demand a six hour day,  
strike for it and ultimately obtain it,"  
Mr. Farrington declared, "it would be  
the worst thing that could happen to  
us, at this time. The cost of coal  
production would run up so high op-  
erators would be unable to sell in com-  
petition with nonunion coal. We would  
have secured a good agreement but  
we'd have no work. We're dealing  
with facts, with a condition, and not  
an ideal."

CALLS LEWIS CRAFTS "RED."  
Blame for the attacks made upon  
International President Lewis of the  
United Mine Workers of America at  
the Indianapolis convention, was laid  
to work of agents of the Third Inter-  
national of Moscow, by Matthew  
Wool, vice president of the American  
Federation of Labor, after his arrival  
in Chicago from an eastern visit.

## NEW AUTOS HAVE COZY NOOKS FOR —WELL, SODA POP

And One Chicagoan Asks  
Cocktail Shaker.

By J. L. JENKINS.

Here's another deep, dark secret of the automobile construction which found its way to a selected few of yesterday's visitors at the show and sales. Students of the matter have checked up and found that all except of the new cars exhibited this week have special and ingenious arrangements for carrying liquid refreshments—ice water, gingerale, lemonade, and the like.

John R. Hustis, general director of the annual salon in the Drake abetted by Capt. Ugo d'Annunzio, the Italian engineer, disclosed some of the interesting refinements in this typically American phrase of motoring, illustrated by the latest achievements in custom coachwork on the floor. Second compartments beneath the seats, within the sides and rear partitions of closed bodies, on running boards, and in new trunks guarantee over-ride work on the part of sponge seats next year. Usually they are controlled by hidden springs and projected by thief and detective proof locks, and the attendant will tell you they are for golf bags, tools, and "extra."

One Chicago clubman ordered a special automobile trunk equipped with a built-in cocktail shaker. His idea is to fill the shaker with the proper ingredients when starting out in the morning and then pray for rough roads to do the rest.

### See Production Sport.

Estimates of probable automobile production this year continued to grow during the day with more than a dozen organization luncheons, followed by company banquets last night. One of the biggest was the Studebaker annual, held in the Blackstone hotel, at which President A. R. Emskins, H. A. Biggs, and A. D. Lasker of Lord & Thomas were the principal speakers.

Factory officials announced that they were already on hand for spring delivery indicate a heavier new car demand than that of last year, with consequent speeding up of all factory units. The dealers were told that mechanical operations at the factory have been developed to a point where 1,120 mechanical operations accurate to one-thousandth of an inch, 490 operations to one-half-thousandth, and many others to one-tenth-thousandth, are now performed in the manufacture of each six cylinder model.

J. N. Willis is speaker.

John N. Willis, fresh from a conference in Washington, where government officials joined with him in framing an international campaign for the improvement and extension of highways as the most important essential for continued automobile prosperity, was the chief speaker at the Willis.

## Notes of the Auto Show

D. F. Fessler, vice president and general sales manager of the Buick Manufacturing company, took time off from his national organization of service stations yesterday in order to demonstrate at the auto show the new "twist gun" lubricator recently developed by his company. The device is designed for the car owner. Its chief difference from other types is that its user does not have to operate a handle to force lubricant into channels and bearings and other parts of the car. The mere act of attaching the nose of the "gun" to an Alemite fitting automatically shoots grease into the bearing with from 5 to 2,500 pounds pressure behind it.

Announcement of a \$100 increase in the price of Cadillac touring models, carried yesterday by financial tickers, caused a stir at the show. The new Cadillac with its V shaped engine, inherently balanced at 90 degrees, and its four wheel brakes, is graphically illustrated at the show in the cut-open chassis, which is a feature of the Coliseum display.

C. E. Gambill of Chicago was elected first vice president of the National Automobile Dealers' association in its closing meeting here. The association formed a program designed to improve every phase of automobile distribution and service in 1924.

Overland banquet in the Congress. This was in honor of the leading dealers and salesmen of the huge organization, who have each sold a net volume of \$100,000 worth of Overland and Willys-Knight cars in 1923. Included in the honor list were Gordon, Witt, Watts, Ekburg, Goetz, and Cutler of Chicago.

In his speech Mr. Willis dwelt on the prosperity of dealers during the last year and announced plans for the production of 325,000 cars in 1924. It was announced that the company had acquired a new plant in Philadelphia, where 100 Overland cars a day will be completed within the next six weeks.

Go where you may,  
you will not find

Europe or elsewhere.

## WISCONSIN JUDGE ARRESTED; GIRL IS HIS ACCUSER

Crandon, Wis., Jan. 31.—(Special.)—County Judge James A. Walsh, Republican leader of Forest county, has been arrested and released on bail as a result of charges preferred by Mary McDaniel, 15, soon to become a mother. Judge Walsh was arrested on Jan. 13, and the following day waived preliminary hearing, was bound over to the April grand jury, and released under bond of \$1,500. The case only came to light today, however, when a committee of the city's most influential citizens asked that a special prosecutor be appointed because of the close friendship of District Attorney G. W. Dawson for the judge.

In the affidavit the girl said she was under Judge Walsh's guardianship for several months and claimed as an incorrigible. She charged that on four occasions she was forced to visit his office and mistreated.

She also charged that the judge told her to implicate "some other man in case she got into trouble."

# 15 MILLION SECRET BALLOTS

(The First 107,145 Votes Are Tabulated in This Week's Literary Digest)

## In a Nation-wide Poll ON TAX REDUCTION

Do You FAVOR The  
MELLON PLAN?

OR

Do You OPPOSE The  
MELLON PLAN?

THE LITERARY DIGEST, with the absolute impartiality which is now universally recognized as its unvarying policy, is mailing individual secret ballots to nearly 15 million men and women voters throughout the United States, that the desires and opinions of the people on this great issue may be known beyond question.

**EVERY VOTE IS THE FREE, UNINFLUENCED, SECRET VERDICT OF  
THE VOTER, UNKNOWN TO ANYONE BUT HIMSELF OR HERSELF**

THE DEMAND FOR TAX REDUCTION is the paramount issue before the country to-day. The only question in dispute is how to secure the reduction. Many plans have been proposed by various political groups or leaders, but attention has become focused upon one plan—the Mellon Plan.

The Mellon Plan reduces the taxes on all incomes in varying degrees; it provides that an earned income (salary, wages, professional services, etc.) shall not be taxed as highly as an income from stocks, bonds, etc. The so-called nuisance taxes, such as the moving-picture admission tax, the telephone tax and the telegraph tax, also are eliminated.

This measure, however, is not without strong opposition. An important fault with the plan, according to such leaders as William G. McAdoo, ex-Secretary of the Treasury, and Commander John R. Quinn of The American Legion, is that it excludes the soldiers' bonus, which they strongly believe should be paid, and which they claim can be paid without preventing some tax reduction.

On the other hand Secretary Mellon says it will be impossible to reduce taxes in this generation if we pay a bonus. President Coolidge also disapproves of a bonus-in fact and principle, and has given unqualified support to the Mellon Plan.

DO YOU FAVOR THE MELLON PLAN FOR TAX REDUCTION OR NOT? Mark your Ballot and support your views.

ALL CLASSES OF VOTERS in all States and all communities in the Nation are being polled with complete impartiality. They include business men, merchants, farmers, manufacturers, railroad employees, bankers, clerks, builders, contractors, superintendents, managers, carpenters, plasterers, plumbers, painters, mechanics, printers, miners, steel-workers, workers in every trade and branch of industry, both union and non-union, professional men and women of all classes, including lawyers, doctors, clergymen, authors, actors, newspaper men,

dentists, engineers, educators, architects, musicians, etc., in short, all parties and all the classes of men and women who make up the voting population in all parts of the country.

NO PROPAGANDA OF ANY KIND is connected with this great National Poll of the American people. The Literary Digest is always strictly non-partisan and impartial on all controversial questions. It records the facts and the opinions of all political parties and all classes. That is why it has come to be regarded by millions of Americans as the one representative and indispensable periodical record of all phases of American life.

The results will appear in THE LITERARY DIGEST. All the figures will be given in detail and will be analyzed and explained, State by State, until the poll is completed. The first announcement will be in the February 2d issue. These reports will have unique and decisive interest for political leaders, the press, and citizens of the whole country. DIGEST readers, of course, will get them first and in the most complete detail. At the same time, and all through the year, THE LITERARY DIGEST will be gathering carefully and reporting all the facts and opinions on all sides bearing upon all the great prob-

lems and issues which are being discussed and which must be settled by the American people in this great Presidential Campaign. THE LITERARY DIGEST is wonderfully equipped for this service by a system built up at great expense through many years of careful work, and reaching into thousands of newspaper and periodical offices, in all parts of the world. The reader can depend upon THE LITERARY DIGEST with absolute certainty as it reveals, from week to week, free from all prejudice and partisanship, the real state of the Nation's mind, the real facts affecting all issues, and the progress of all the great problems toward settlement.

MEN'S FASHIONS

BY A. T. GALLICO.

Before and After.  
NEW YORK.—(Special Correspondence.)—Probably neither of the figures illustrated suggests to you the perfectly groomed man you would like to be. But you must admit the one on the right presents a decidedly better appearance than the one on the left. This is another of those before and after ideas that the artist and we like to give to our readers. This special sermon has to do with

a large man who wore a tuxedo that was neither the right size nor the correct style for his figure.

In fact, the suit gave the appearance of being several years old, so unfashionable was the cut and so tight did it look on the man in question, who, we happen to know, was certainly in a position to invest in a dinner coat that was a little more up to 1924 requirements.

The trouble, briefly, was this: The man was round shouldered, rather short of neck, and large, as we said above.

TRIBUNE COOK BOOK

BY JANE EDDINGTON.

Baking Griddle Cakes.

The test of a perfectly baked griddle cake is that the sides shall be as alike as twins, which you cannot tell one from the other. This means several things. It means getting a griddle at a temperature that need not be altered until a whole batch is baked. It also means turning the cake while the top is still raw or unset. If you wait until it sets, you get a second side like that of a crumpet or the first side like a regular pancake. The sides,

then, you see, are far from being twin-like.

Heat the griddle slowly, with a moderate heat, to just blissing hot and you will not need to change the amount of heat under it in most cases. If you get too pallid a cake after the heat but slightly "on the next, but remember that you want no shade darker than beaver, if as dark, and not a seal brown for your cakes.

If the heat under a cake is too great, the bubbles of air in it will swell and burst so quickly that the other side will be crumpled whether or no. The point to remember is that a good

griddle cake batter is full of wet air, which the heat turns to steam and so swells the cake. The fuller of wet air the cake is—the better beating does it—the fuller the cake will be of bubbles.

In addition, the greater part of the

other lands covered by the mortgage have been purchased by James D. Lacey and Company whose reports indicate a total of over 475,000 cords of pulpwood on the lands cruised, together with a small amount of pine and over 75,000,000 feet of hardwood. In their opinion the pulpwood alone would be conservatively valued at not less than \$2,000,000. The total net assets excluding good-will and similar intangible values of The Parker-Young Company and its subsidiaries as shown by the consolidated balance sheet, as of August 31, 1923, with subsequent adjustments to show the effect of current financing, amount to \$7,886,404 or over \$2,815 for each \$1,000 of the total mortgage and funded debt of the consolidated companies. SEES COMEBACK  
OF STEAM MOTOR  
FOR BUS, TRUCK

BY SCRUTATOR.

Comeback of the steam motor car, as a bus and heavy truck transportation, is a concern, is the prediction of E. W. Meade of the Detroit Motor Car Company.

Fascinating, indeed, is the present status of transportation and power. While politicians and lawyers are proceeding to agitation or adjustment of questions of rates and basic values upon the practically implied assumption that transport has become a natural monopoly, and that it is still a "natural monopoly," as it appeared to be at the dawn of the century, it is changing every day.

It has produced seemingly inconsistent results. There is a whole literature from transportation executives, which values just complaint at the paralyzing effect of too much governmental restriction. On the other hand, from the same sources come demands for restriction of truck transport or other means of transport in some principle which will recognize the difference between publicly constructed highways and privately built rail lines.

These new rivalries are accompanied by such readjustments as the abandonment of unprofitable rail lines and the building up of others by the use of motor car feeders.

At the meantime radical industrial changes are under way, both in motor and rail systems.

In a recent number of William G. Low's ably edited *Transportation Magazine*, which is a labor organ, can be found a picture of Diesel oil locomotives in operation on Swiss suburban lines, while most electrical periodicals tell in print and picture of the electrification of more and more heavy traffic lines within electrical range of the Alps.

From Paris we get the story of steam motor buses using charcoal for fuel.

Not long ago in this column Henry L. Duberry's prediction of the gradual eclipse of the steam motor by the internal combustion motor in power production was noted. Public utility operators in small cities, who have tried the steam engine, tell the writer that it will not do because of its lack of flexibility.

And now comes the Detroit bus man to predict that steam will come back on the road, while it seems to be yielding place on rail and water. The ponderous steam locomotive of nearly a century ago, which were nipped at their start by the railroads, may come back, in different form with different fuel, to strip rail lines of much fuel.

The Detroit man believes that steam will replace gas for all heavy road vehicles. He says: "If one-half the time and study spent to develop the internal combustion motor had been given to steam propulsion of road vehicles, is there any doubt that it would be far in advance of its present position? Think of the reduction of effort on the part of the driver that could be accomplished. The constant running of the motor and the last time and motion of gear changes are wasteful in the extreme, but we tolerate them, because at this time the explosion motor has the jump on other forms of motor power for the automobile."

Now let's take a sea voyage and we find our old steam getting it in the neck on long voyages while it holds its own or better on short runs. The shipping board owns the Ethan Allen and the William Penn, with identical hulls. The Ethan Allen is a steamer, the Penn has the Diesel drive. The Diesel ship has 5 per cent more space for cargo, but her engine crew costs \$4,000 more per year. On a six months' voyage the Diesel ship consumes only 115 barrels of fuel oil per 100 tons, against 167 barrels consumed by the steamer. But the Diesel engine cannot use satisfactorily as low grade oil as a steamer.

And so it goes all round the world. Wherever the scientific and technical skill is given a chance it makes a life of the world, while it must ever struggle against the petrification proposed by those who would impose on man the rigid formulas, which are the fruit of "social thinking."

# Senate Debates Denby Ouster as New Oil Scandal Is Forecast—Coroner's Jury Asks Lincoln Be Held for Murder

**MUST REMAIN IN BED.** Woodrow Wilson, weakened by a digestive disturbance, is reported by physicians to be "somewhat prostrated by his illness."  
(Underwood & Underwood Photo.) (Story on page one.)

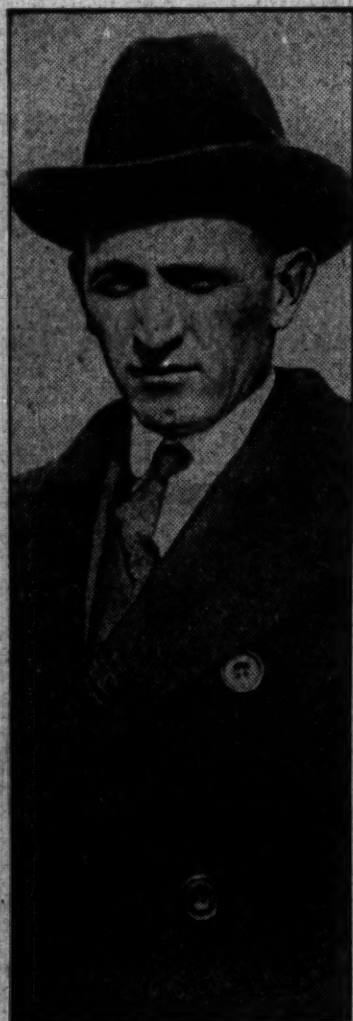

**SENATE DEBATES OUSTER OF DENBY.** The secretary of the navy, who is under fire for his connection with Teapot Dome oil scandal, is seen telling a group of Washington reporters why he is determined not to resign.  
(Keystone Photo.) (Story on page one.)

**CORONER'S JURY HOLDS LINCOLN FOR TRIAL FOR MURDER.** Recommendations that the lawyer-horticulturist of Aurora be held to the grand jury on two murder charges are made at inquest. Warren J. Lincoln (bald headed man) is seen at extreme right.  
(Tribune Photo.) (Story on page three.)

**TO SCOUR TEAPOT.** Silas H. Strawn, special counsel in oil quiz, calls on President.  
(Story on page one.)

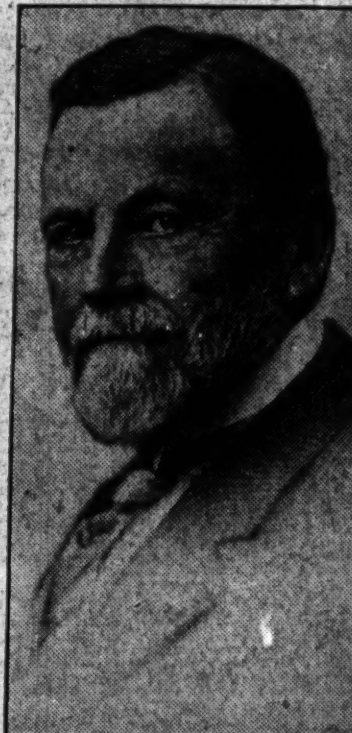

**FALL'S FOREMAN.** J. T. Johnson, ranch boss of ex-Secretary Fall, is quizzed in senate.  
(Story on page one.)

**THEY'LL ASSIST IN TEAPOT DOME QUIZ.** R. H. Hollen (at the left) and W. H. Jacobs of Chicago, are named to help in oil scandal investigation.

**RESCUED FROM LAKE.** James Davis, 5 years old, who lives at 1061 Columbia avenue, went boating on a cake of ice. He owes his life to the bravery of Spencer Jones, colored chauffeur.  
(Tribune Photo.)

**TAKES EAT UP HUGE ESTATE.** Under conditions of will of C. H. Morse (at the left), Lt. Col. Robert Hosmer Morse receives nearly two million but has to pay out more than he receives.  
(Story on page one.)

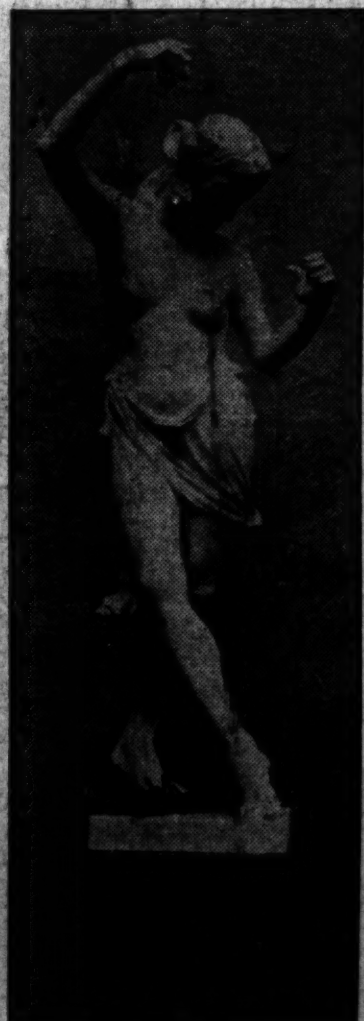

**TRAINING FOR WAR ON BANDITS.** Lieut. Harry Edwards, drillmaster of the Philadelphia police, under Gen. Butler, conducts tests of new bandit guns at Cannon Ball Farm, Pa.  
(Pacific and Atlantic Photo.)

**CAR IN WHICH FOUR PERSONS WERE INJURED.** Although automobile was completely demolished in collision with street car at 47th street and Drexel boulevard, none of its occupants was seriously hurt.  
(Story on page six.)

**FOLLIES DANCER WED.** Left to right: E. Rosenbaum Sr., manager of the Follies; Gilda Gray's father; Judge Marcus Kavanagh, who tied the knot; Mrs. E. Rosenbaum, Gil Boag, bridegroom; Gilda Gray, bride; and Lenore Ulric, witness. The ceremony was performed at Gilda Gray's apartment.
